

SUBJECT: OPERATIONAL ADVISORY  
EFFECTIVE: June 8, 2018 until further notice

Supply nominations for Friday, June 8, 2018 (gas day 8) on the Dominion Energy Ohio (DEO) system are exceeding projected customer burn and injection rights. Nominations for the upcoming weekend, June 9-11, 2018 (gas days 9-11) must be lower than those for gas day 8.

Dominion Energy Ohio (DEO) requests that all suppliers and end-users take whatever steps are necessary to ensure that supply and demand are in balance for the upcoming weekend. Although suppliers and end-users bear ultimate responsibility to balance supply and demand, DEO will be monitoring nominations closely and, if necessary, will reduce or reject nominations in accordance with Section 8.3 of the General Terms and Conditions of Transportation of Service (GTC) and Section 8.4 of the General Terms and Conditions of Energy Choice Pooling Service (ECPS).

DEO reserves the right to take further action in accordance with DEO's General Terms and Conditions of Transportation and Pooling Service and other applicable tariff provisions, including the issuance of system-wide, point-specific, or supplier-specific operational flow orders and limitation of storage injections.

Thank you for your consideration and attention to this advisory.

Please contact the Transportation group at [EOG\\_TRANS\\_SERV@dominionenergy.com](mailto:EOG_TRANS_SERV@dominionenergy.com) with any questions.
