

OPERATIONAL ADVISORY: SEPTEMBER MAINTENANCE UPDATE

As previously posted, Dominion Energy Transmission, Inc. (DETI) will be performing maintenance on its pipeline system in September, 2018 that may impact deliveries to the Dominion Energy Ohio (DEO) city gate. Specifically, DETI has posted maintenance for the following periods: 1) September 11-12, 2018; 2) September 24-28, 2018; and 3) September 25-October 5, 2018. Each of these maintenance postings will impact one or more of DEO's receipt points with DETI.

At this time it does not appear that DEO will be required to limit nominations to the DETI/DEO city-gate unless nominations due to the DETI maintenance are considerably higher than current DETI city-gate nominations or should the scope of DETI maintenance change. Should the DETI city-gate nominations increase to a point beyond our operational capability, DEO will allocate/cut the nominations on a pro-rata basis.

If you have any concerns about the potential of DETI supply allocations/cuts in September, we can make available additional Tennessee Gas Pipeline (TGP) Gilmore gate space for September.

Thank you for your attention to this matter.

Please direct any questions to EOG_Trans_Serv@dominionenergy.com.

For more information, please refer to DEO's tariff and the General Terms & Conditions of the applicable pooling service at: <https://www.dominionenergy.com/home-and-small-business/rates-and-regulation/tariffs>.
