

This is a notice to remind all shippers on DEO's system that the No Increase Order is still in effect.

NO INCREASE ORDER EFFECTIVE TUESDAY JANUARY 29, 2019 (GAS DAY 29) UNTIL FURTHER NOTICE

Dominion Energy Ohio (DEO) has limited pipeline receipt capacity impacting the Price to Mullet corridor of its system (see below for impacted receipt points). In view of forecasted severe weather conditions, DEO has determined that in order to support system operations and maintain system integrity, it is necessary to issue a No Increase Order effective Tuesday, January 29, 2019 (gas day 29) until further notice. The volumes nominated and confirmed from the DEO/pipeline interconnect receipt points listed below cannot exceed the confirmed Intraday Cycle 1 (ID1) nominations for Friday, January 25, 2019 (Gas Day 25). Nominations in excess of this standard while these restrictions are in effect may be rejected or reduced accordingly.

Operator Name	Location/Meter #
Texas Eastern	Clarington (74040)
Rockies Express	Clarington (44490)
EquiTrans Midstream	Monster Jam (L113)
EquiTrans Midstream	Snake Eyes (L267)
Eureka Midstream	Mullet (L193)
Blue Racer Midstream	Grum (L223)
Blue Racer Midstream	Lude (L064)
Blue Racer Midstream	Cravat Coal (L224)
Blue Racer Midstream	Price (L126)
Gulfport Irons	Irons (L088)
Dominion Energy Transmission (DETI)	20100

(The DETI exception is Cochranon receipts from TGP)

DEO expects that Endusers and Marketers will continue to match their anticipated burn/targets with equivalent levels of supply. If additional supply is needed above the restricted volumes stated above, volumes may be nominated from the Nexus Gas Transmission (Meter # N1002), ANR Pipeline (Meter #108641) and Panhandle Eastern (Meter #EOHIO) receipt points and on a limited basis from Tennessee Gas Pipeline (TGP) via the Gilmore (Meter #420932) and/or Petersburg (Meter #420934) receipt points.

DEO may extend these restrictions, in whole or in part, and/or issue additional restrictions if necessary based on future operating conditions. This advisory is issued pursuant to DEO's tariff on file with the Public Utilities Commission of Ohio.
