

OPERATIONAL ADVISORY: Dominion Energy Ohio's (DEO) West Ohio Division

Customers and suppliers operating on the Dominion Energy Ohio (DEO) West Ohio division are reminded that DEO will issue an Operational Flow Order (OFO) whenever Columbia Gas Transmission (TCO) issues a Critical Day notice. Presently, TCO has issued an Operational Advisory effective this upcoming weekend, Saturday, October 12, 2019 through Monday, October 14, 2019 (please see below for a copy of TCO's Operational Advisory). Please insure that supply and demand is in balance. Should TCO issue a Critical Day, DEO will issue an OFO for the West Ohio division.

For more information on OFOs, please refer to DEO's Tariff and the General Terms and Conditions of Transportation and Pooling services, which can be found at:  
<https://www.dominionenergy.com/large-business/rates-and-tariffs/tariffs>

If you have any questions, please email [EOG\\_Trans\\_Serv@dominionenergy.com](mailto:EOG_Trans_Serv@dominionenergy.com)

Thank you for your attention to this matter.

-----  
As part of its commitment to communicate current operating conditions to customers, Columbia Gas Transmission, LLC (TCO) issues the following Operational Advisory effective Saturday, October 12, 2019 through Monday, October 14, 2019:

Due to forecasted supplies and market demand, coupled with maintenance and current storage levels, TCO may limit storage injections to firm quantities only, which would constitute a Critical Day in storage. Customers can assist TCO operations and reduce the potential need for a Critical Day by not exceeding Maximum Daily Injection Quantities and keeping supplies and markets in balance. Due Pipe nominations will be unavailable during this advisory period.

Please monitor the Daily Capacity Posting regarding the necessity for a Critical Day. Also, a separate Critical Notice will be posted explaining the applicable penalties, if necessary. Firm Storage Service (FSS) shippers are reminded that, per section 3(c) of the FSS Rate Schedule, the Maximum Monthly Injection Quantity (MMIQ) for October is 7% of the Storage Contract Quantity (SCQ), and the Maximum Daily Injection Quantity (MDIQ) is 1/25th of the MMIQ.
