

Second Reminder

Dominion Energy Ohio (DEO) reminds all Energy Choice and Standard Service Offer (SSO) marketers that all storage pool volumes must be at zero by March 31, 2020. Please refer to Sections 13.14 and 18.1 of the Energy Choice Pooling Service - General Terms and Conditions for information on how remaining volumes are cashed out.

It is recommended that all ECPS and SSO storage holders run the Storage Balance report to review storage inventory levels and plan accordingly so that all volumes are withdrawn by March 31, 2020.

Please contact the Energy Choice team at Gas_Energy_Choice@dominionenergy.com with any questions.
