

NOTICE OF NOMINATION REDUCTIONS AND SUPPLY RESTRICTIONS  
EFFECTIVE TUESDAY, OCTOBER 20 (gas day 20) UNTIL FURTHER NOTICE

In order to support system operations and maintain system integrity and to permit the performance of unscheduled maintenance on its system, Dominion Energy Ohio (DEO) has determined that it will be necessary to significantly reduce nominations for on-system deliveries and storage injections from several receipt points effective Tuesday, October 20, 2020 (gas day 20).

The impacted receipt points are:

- \* Blue Racer Midstream receipt points (Cravat Coal/L224; Grum/L223; Price/L126; Lude/L084)
- \* Dominion Energy Transmission Pipeline (ML001)
- \* EquiTrans Midstream Monster Jam Receipt point (L113)
- \* EquiTrans Midstream Snake Eyes Receipt point (L267)
- \* EquiTrans Eureka Mullet Receipt point (L193/ML045)

In addition, as posted, DEO will not accept nominations from:

- \* Texas Eastern Pipeline Company (ML018)

DEO will post more details and communicate specifics on required October 20, 2020 (gas day 20) supply reductions and allocations as soon as possible.

DEO expects that end-users and marketers will continue to match their anticipated burn/targets with equivalent levels of supply. If additional supply is needed in excess of the restricted volumes, volumes may be nominated from the Nexus Gas Transmission (Meter #N1002), ANR Pipeline (Meter #108641) and Panhandle Eastern (Meter #EOHIO) receipt points, and (on a limited basis) from Tennessee Gas Pipeline (TGP) via the Gilmore (Meter #420934) receipt point.

DEO may issue additional requests, extend the restrictions beyond gas day 20, or impose additional restrictions if necessary based on future operating conditions.

For more information, DEO's tariff can be viewed at:
