

OPERATIONAL FLOW ORDER (OFO): POINT SPECIFIC ? February 7-10, 2021

In accordance with Sections 8 and 13 of its General Terms and Conditions of Transportation Service (GT&Cs) and comparable sections in its pooling service terms and conditions, Dominion Energy Ohio (DEO) is issuing a Point Specific Operational Flow Order (OFO) at the TCO Buzzard Meter for Sunday, February 7, 2021 through Wednesday, February 10, 2021 (gas days 7-10). Please refer to the GT&Cs along with the DEO Updated System Operational Review document posted on the DekafLOW website dated January 30, 2020.

Suppliers and end-users are required to review the OFO window in DekafLOW to determine if they have an OFO requirement. Please refer to DEO's DekafLOW website to find a guide explaining how to use the OFO requirement window.

"Point Specific OFO" volume information is located on the left-hand side of the screen.

This gas will be nominated in DEO's DekafLOW to any of the EAST OHIO pools, using receipt location ML050.

The gas will be scheduled on TCO Navigates to DEO's 80-3 meter. Suppliers will receive credit for this gas flow in their East Ohio pools ? even though the gas flows on our West Ohio system.

Pursuant to Section 13.1 of the GT&Cs, failure to comply with an OFO may result in DEO billing the customer or supplier the OFO shortfall times the highest incremental gas cost paid by DEO on the date of non-compliance plus Eastern Gas Transmission and Storage, Inc. FTNN rate schedule demand charges times a multiplier based on the number of days of non-compliance as well as other resulting charges, inclusive of storage and overrun costs, incurred by DEO, and any associated excise tax.
