Subject: DGP Sells Assets - Pool Operators Notice

Notice Text:

Dominion Gathering and Processing (DGP) has entered into an agreement to transfer a portion of its gathering facilities by sale to Dominion Energy West Virginia (DEWV), also referred to as Hope Gas, Inc.

On July 1, 2020, DEWV is expected to take ownership of certain assets in Pods 2,3,4,5,7,9 and 11. In order to facilitate the coming changes, DGP has begun the process of creating pools for those pool operators who will be affected by the sale.

Pool operators affected will see new pools in their Pool Definition and EFS screens. These pools will have new contracts assigned to them. The new contracts will be enabled for nomination in the month of July 2020; however they will not be available for nomination until DGP has finalized the transfer on the Dekaflow system. DGP will then follow up with all pool operators and provide details on EFS, Pool Definition, and Nomination process changes.

Pool operators should continue to follow existing procedures related to Pool Definition, EFS, and Nominations.

Any imbalance on DGP up to the sale date will have to be made up with DGP. Pool operators with new pools on DEWV will begin their balance at zero, and imbalance on pools with DEWV thereafter will be considered a separate imbalance than the imbalance with DGP.

DGP will continue to manage the EBB including any assets sold to DEWV until further notice. If you have any questions regarding the following, please contact the person(s) listed below.
